

Terminal Filter For Pharmaceutical Industry

Pharmaceutical Industry has special requirement for filter system. To meet this strict standard, FLECO specially design this terminal filter with GEL sealant and unique structure.

Each unit has its own test spot for continuous observation to make sure the pressure drop, air flow, etc is normal.

The Filter grade can be HEPA (H14) or ULPA (U15,U16).

Body material is stainless steel, Extruded aluminum or galvanized steel sheet.

Standard size

TYPE	Housing (WXHXD) (mm)	Airflow(CMH)
FFG	500X500X255	500
FFG	700X640X255	1000
FFG	760X700X255	1250
FFG	1100X700X255	1500

Special size is available upon request.
